simply **profitable**

Share the Smiles Photo System

Generate new profits with Share the Smiles CDs

The Share the Smiles Photo System opens up a whole new world of revenue opportunities to photo lab owners. With customers requesting their photos on CD, Howtek's Share the Smiles Photo System can satisfy your customers' needs and increase your profits.

As easy as 1, 2, 3… CD

Howtek's affordable FotoFunnel™ print scanner allows you to quickly scan photos and transfer them to a Share the Smiles CD, meeting one-hour photo processing requirements with time to spare. Just load the prints, press a button and scan away. A few minutes later your Share the Smiles CD is ready. Every CD also comes loaded with special viewer software that adds to the fun, allowing customers to organize, and customize their photos on their home computer.

FotoFunnel makes digital imaging…simply profitable

The FotoFunnel print scanner makes transferring prints to digital images both fast and affordable. This compact print scanner with no mirrors and few moving parts is a workhorse engineered for high productivity and tough commercial use.

FotoFunnel-

- Scans a photo every 9.5 seconds
- Holds up to 72-plus photos in one tray
- Utilizes gentle feed rollers to keep photos flat, with no bending or cracking
- Scans mixed color and black and white prints
- Accepts mixed print sizes up to 5″ x 12″
- Scans up to 600 DPI

Scans up to 360 prints in one hour!

See FotoFunnel specification sheet for complete details.

The **profits** are as endless as the **smiles in every box** of photos and on every roll of film.

Your Smiles on CD.™

FunnelScan™ software automates photo scanning

Howtek's FunnelScan software is simple to use and allows for "load and leave" batch scanning of photos. After loading a stack of photos, just launch FunnelScan on your computer, name the scanning session, press "scan" and walk away. Thumbnail prints of scanned photos appear on your screen, allowing you to preview images and check and rotate their orientation. Then burn the images on a Share the Smiles CD, save

them on your hard drive, or publish them on the Web for viewing. It's simple and easy.

Viewer software provides creative viewing options

The viewer software on every Share the Smiles CD allows your customers to get creative with their pictures. They can organize photos and add descriptives to each image, create multi-media slide shows, turn shoeboxes of photos into electronic photo albums, share photos via e-mail or on the Web, and create seasonal or special theme CDs. Share the Smiles CDs offer a world of fun ideas.
